

Program Arcade Games With Python And Pygame

Lab 2: Computer History

At the end of Chapter 2, there were three videos from Triumph of the Nerds (<http://www.imdb.com/title/tt0115398/>) and also Nerds 2.0.1 (<http://www.imdb.com/title/tt0207264/>). Watch some or all of the videos. I recommend the third video of the Triumph series if you don't watch them all.

Write a one and a half page report (at least 400 words) summarizing what you watched. Reflect on how the computer industry has changed since this video was created.

[\(labs/computer_history/bill_ga](#)

Your report should include things like:

- Name
- Date
- Title
- Paragraphs
- Proper spelling and grammar

If you are using the template files for this class, there is a blank MS Word document you can just edit and then send to be graded.

You are not logged in. Log in [here \(user_progress_report.php\)](#) and track your progress.
